layout progress or rail adventures at the Meets!**

see back side for contact and more information

The National Model Railroad Association (NMRA) was established in 1935 in Milwaukee, WI to bring model railroaders together and develop standards for the model railroading industry.

The Wisconsin Southeastern (WISE) Division of the Midwest Region (MWR) of the NMRA was formed in 1966 and serves over 150 members in seven counties in southeastern Wisconsin - Kenosha, Milwaukee, Ozaukee, Racine, Walworth, Washington and Waukesha. Dedicated to it's educational mission to promote the hobby of model railroading, the Division creates opportunities for modelers, from newcomers to those more experienced, to come together and share new ideas and information. While this is done primarily through events such as our monthly meets, which includes how-to and historical presentations, bring and brag, model and photo contests and layout tours, we have had a video library available, bus trips to other model railroad events, a weekend for those interested in operating sessions and other fun educational events.

During these current trying times the WISE Division is staying connected to it's members via virtual Zoom meetings, along with hosting our monthly meets in person again.

Since 1971 the Division has also held an annual open house every November called **Trainfest®**, which brings hobbyists, hobby dealers, manufacturers and train fans of all ages together for two days to celebrate everything train related. This year Kalmbach Media and Great American Train Shows has taken over operation of the show. The WISE Division will have a booth at the show to promote the hobby, the Division and the NMRA.

Be sure to visit our websites for more information on all of our events.
